

Hanford Nuclear Reservation leaks toxic waste into the most nuclear polluted river in the western hemisphere. The US Navy, Rocky Flats, and Fernald, Ohio, are all sending new waste to Hanford. If Hanford is to serve as a nuclear waste dump, the American government owes the public an investment in science—building effective treatment plants.

**Portland, Astoria, Hood River,
The Dalles, Cellilo, Richland,
Vancouver, Kennewick, Pasco,
the American Northwest...
The real nuclear threat is from
within!
